

TOTARA COURTYARD FUNDRAISER

Beautiful lasting sculpture by local sculptor James Wright of Art Industries, Clevedon.

Laser cut corten steel (steel with copper & nickel) bird or birds on one steel rod per family, or per individual, epoxied into a section of totara trunk, to become part of 'flock of birds' sculpture for the re-designed 'Totara Courtyard'.

\$50 per bird (one bird per child or one bird per family) for past, present, or future children at Pukekohe East School, to remain at school for years to come.

A lasting reminder of your time at Pukekohe East School with your name engraved on a tag at the base of your bird/s, and as a lasting record.

An amazing outdoor artwork for the new Totara Courtyard, for all to enjoy.
